

## ADVANCE PROGRAMME

Issue 5 - 5.2.24 *content subject to change*

CO-CHAIRMEN:

Prof Fares Haddad • Prof Henrik Malchau

Thursday 14 March • QEII Centre. London

PLATINUM SPONSORS

HCAHealthcare UK

THE LISTER HOSPITAL  
chelsea

London Bridge Hospital

THE PRINCESS GRACE HOSPITAL

The Wellington Hospital

### 07:15 Registration and Coffee

### 08:00 Welcome & Introduction

*Fares Haddad*

#### Session 1 Hip Preservation

**Chairs: Fares Haddad / Marcus Bankes**

08.05	Clinical and imaging evaluation of young adult hip pain – a layered process	<i>Oliver Marín-Peña</i>
08.12	Symptomatic hip Impingement - should we be intervening sooner?	<i>Giles Stafford</i>
08.19	The acetabular labrum and its optimal management in 2024	<i>Tony Andrade</i>
08.26	Picking winners in hip preservation surgery	<i>Johan Witt</i>
08.33	Ischiofemoral impingement - fact or fiction?	<i>Tony Andrade</i>
08.40	Rotation - in the eye of the beholder?	<i>Jonathan Hutt</i>
08.47	Extra-articular hip arthroscopy	<i>Oliver Marín-Peña</i>
08.54	Discussion	

#### Session 2 Primary THA

**Chairs: Edward Davis / Jon Vigdorichik**

09.10	Mitigating risk in primary THA - what can we do and achieve in 2024?	<i>Steve Jones</i>
09.17	Hip replacement in the young population - data from registries.	<i>Maziar Mohaddes</i>
09.24	Does hip replacement work in all comers?	<i>John Skinner</i>
09.31	Femoral head size influence on metal ion levels	<i>Anders Troelsen</i>
09.38	Bearing surfaces – an NJR perspective	<i>Michael Whitehouse</i>
09.45	Long term survivorship of metal-on-metal hip resurfacing	<i>Dominic Meek</i>
09.52	Cementless ceramic hip resurfacing: an update	<i>Andrew Manktelow</i>
09.59	Discussion	

### 10.10 Coffee & Exhibition

#### Session 3 Primary THA (continued)

**Chairs: Steve Jones / Anders Troelsen**

10.40	The cemented primary THA in altered anatomy	<i>Samantha Hook</i>
10.47	Incidence and epidemiology of PPF after primary THA	<i>Jonathan Evans</i>
11.54	Periprosthetic fractures in cemented stems - does design matter?	<i>Geert Meermans</i>
11.01	Risk of reoperation in polished cemented stems - data from registries	<i>Maziar Mohaddes</i>
11.08	Collared vs non-collared stems and periprosthetic fracture risk	<i>Jon Vigdorichik</i>
11.15	Cementless stems and why we should still be using them	<i>Edward Davis</i>
11.22	Discussion	

#### Session 4 Primary THA (continued)

**Chairs: Samantha Hook / Henrik Malchau**

11.40	Shorts stems - are age, gender and BMI limiting factors?	<i>Nicolas Reina</i>
11.47	The DSI approach. A good alternative to DAA	<i>Hugh Apthorp</i>
11.54	Do you need more than one approach to be a hip surgeon?	<i>Andrew Manktelow</i>
12.01	The spinopelvic equation simplified	<i>Luigi Zagra</i>
12.08	Decreasing instability in high-risk patients with spinal deformity and stiff spine (Hip-Spine 2B)	<i>Jon Vigdorichik</i>
12.15	Large metal heads in thin vitamin E-doped cross-linked polyethylene inserts	<i>Anders Troelsen</i>

12.22 Looking to the future: The HIPPY trial & Joint PREP

*Michael Whitehouse*

12.29 Discussion

### 12.45 Lunch & Exhibition

#### Session 5 Discussions of Complex Cases

**Moderators: Marcus Bankes / Steve Jones / Johan Witt / Andrew Manktelow / Luigi Zagra**

13.45 Faculty panel debate of complex cases

*Arthroplasty Faculty*

#### Session 6 The Changing Face of Hip Surgery

**Chairs: Sarah Muirhead-Allwood / Geert Meermans**

14.40 Is it a bird? Is it a plane?

*Jonathan Hutt*

14.47 Robotic and technology assisted hip arthroplasty - current developments

*Edward Davis*

14.54 Robotic arm assisted surgery: results from an RCT

*Fares Haddad*

15.01 Predicting pelvic tilt from an AP pelvis using Artificial Intelligence

*Jon Vigdorichik*

15.08 Discussion

#### Session 7 Revision Scenarios

**Chairs: Carsten Perka / Andrew Manktelow**

15.20 CT IMA for diagnosing loosening

*Henrik Malchau*

15.27 Short versus long stems in RTHA with moderate bone loss?

*Gijs van Hellemond*

15.34 Outcomes using Monobloc tapered fluted titanium revision stems

*Sujith Konan*

15.41 Periprosthetic fracture non-unions – what next?

*Chloe Scott*

15.48 Discussion

### 16.00 Coffee & Exhibition

#### Session 8 Revision Scenarios (*continued*)

**Chairs: Fares Haddad / Henrik Malchau**

16.30 Hemi-spherical cups in revision THA – optimising our workhorse solution

*Steve Jones*

16.37 Prevention of dislocation after revision total hip replacement

*Carsten Perka*

16.44 Pelvic discontinuity in revision THA

*Gijs van Hellemond*

16.51 Custom made implants in acetabular defects

*Nicolas Reina*

16.58 Abductor insufficiency

*Carsten Perka*

17.05 Discussion

17.15 Septic hip revision - the difference between studies and the real world in registries

*Carsten Perka*

17.22 DAIR in RTHA

*Gijs van Hellemond*

17.29 Phage therapy in the UK

*Tom Harding*

17.36 The INFORM trial – key messages

*Michael Whitehouse*

17.43 Discussion

17.55 Final comments

*Fares Haddad*

### 18.00 Close of Meeting
