

07:15 Registration and Coffee

08:00 Welcome & Introduction

Fares Haddad

Session 1 Hip Preservation

Chairs: Fares Haddad / Anders Troelsen

08.05	Is it negligent to miss FAI in 2025?	<i>Callum McBryde</i>
08.12	Capsule closure in hip arthroscopy, to be or not to be?	<i>Oliver Marin</i>
08.19	Hip cartilage regeneration - is there any hope?	<i>Dominic Meek</i>
08.26	Ischiofemoral impingement - fact or fiction!!	<i>Tony Andrade</i>
08.33	Hip arthroscopy after THA: Is there a role?	<i>Giles Stafford</i>
08.40	3D correction in hip preservation	<i>Kartik Logishetty</i>
08.47	Borderline dysplasia - treat the problem not the numbers	<i>Jonathan Hutt</i>
08.54	Same day hip arthroscopy and PAO - evolution or regression?	<i>Tony Andrade</i>
09.01	Mental health and the outcomes of hip preserving surgery	<i>Alastair Dick</i>
09.08	Discussion	

Session 2 Primary THA

Chairs: Edward Davis / Justin Cobb

09.25	Where surgeons take the lead in non-operative arthritis care	<i>Kris Govaers</i>
09.32	Should we use NPWT in all THAs to prevent infection?	<i>Oliver Marin</i>
09.39	The environmental impact of hip replacement	<i>Jonathan Evans</i>
09.46	Bearings: what does the NJR tell us?	<i>Mike Whitehouse</i>
09.53	Registry data: new and evolving applications	<i>Maziar Mohaddes</i>
10.00	Registry linkage in Germany: important messages	<i>Carsten Perka</i>
10.07	Discussion	

10.20 Coffee & Exhibition

Session 3 Primary THA (continued)

Chairs: Dominic Meek / Carsten Perka

10.50	Modern DAA THA with preop modeling, navigation and AI fluoroscopy	<i>George Haidukewych</i>
10.57	Anterior approach and anterior pain: reasons and remedies	<i>Filippo Randelli</i>
11.04	The Star approach	<i>Eleftherios Tsiridis</i>
11.11	Posterior approach is perfectly fine	<i>Andrew Manktelow</i>
11.18	Hitting the target in protrusio hips	<i>Geert Meermans</i>
11.25	Chasing your TAL - can traditional anatomical landmarks help with patient specific functional acetabular component position?	<i>Jonathan Hutt</i>
11.32	Robotic hips - what can technology offer?	<i>Edward Davis</i>
11.39	Robotic arm assisted THA - outcomes from complex cases	<i>John Skinner</i>
11.46	Discussion	

Session 4 Primary THA (continued)

Chairs: Steve Jones / Henrik Malchau

12.05	Hip resurfacing: is there a functional advantage?	<i>Fares Haddad</i>
12.12	Hip resurfacing: will ceramic be the answer?	<i>Andrew Manktelow</i>
12.19	Gait, hip arthroplasty, and minimal clinically important difference	<i>Justin Cobb</i>

12.26	Dual mobility pros and cons	<i>George Haidukewych</i>
12.33	DM for everybody or a large head is enough	<i>Krisztian Sisak</i>
12.40	Monobloc dual mobility for primary THA - what is the rationale in smaller sizes?	<i>Sebastien Lustig</i>
12.47	Discussion	

13.00 Lunch & Exhibition

Session 5 Discussions of Complex Cases

Moderators: Steve Jones / Filippo Randelli / Andrew Manktelow / Oliver Marin / Callum McBryde

14.00	Faculty panel debate of complex cases	<i>Arthroplasty Faculty</i>
-------	---------------------------------------	-----------------------------

Session 6 The Changing Face of Hip Surgery

Chairs: Andrew Manktelow / Geert Meermans

15.00	Function after periprosthetic femoral fracture	<i>Justin Cobb</i>
15.07	Core outcome set for periprosthetic fractures	<i>Jonathan Evans</i>
15.14	Periprosthetic fracture rates: comparing cemented Exeter-type stems (CPT) vs. Lubinus	<i>Olof Skölden</i>
15.21	Cemented vs uncemented stems - what does the latest data show?	<i>Edward Davis</i>
15.28	Switching philosophy in cemented stem fixation	<i>Steve Jones</i>
15.35	Plate fixation/ORIF for Vancouver B2 fractures on cemented polished Exeter-type stems	<i>Olof Skölden</i>
15.42	Collared cementless stems as protective factor against early periprosthetic fracture in THA: multivariate analysis in a single center cohort of 1623 patients	<i>Sebastien Lustig</i>
15.49	Femoral stem stability in primary THA with French Paradox cementing	<i>Anders Troelsen</i>
15.56	Discussion	

16.15 Coffee & Exhibition

Session 7 Revision Scenarios

Chairs: Fares Haddad / Henrik Malchau

16.45	Bearing selection in revision THA - rationale, algorithm & outcome	<i>Steve Jones</i>
16.52	DAA revisions	<i>Filippo Randelli</i>
16.59	Conversion of failed ORIF hip fracture to THA	<i>George Haidukewych</i>
17.06	Periprosthetic fractures: lessons learnt	<i>Carsten Perka</i>
17.13	Monoblock vs Modular taper fluted stem	<i>Krisztian Sisak</i>
17.20	Improving socket fixation	<i>Sarah Muirhead-Allwood</i>
17.27	Pelvic discontinuity	<i>Krisztian Sisak</i>
17.34	Custom implants and cemented DM cup: Winning strategy for disastrous situation in revision THA	<i>Sebastien Lustig</i>
17.41	Abductor reconstruction for instability	<i>Eleftherios Tsiridis</i>
17.48	Discussion	
17.55	Final comments	<i>Fares Haddad</i>

18.00 Close of Meeting
